| DESIGNATION   | SOUR   | C E  |   | DURATION | I D   |
|---------------|--------|------|---|----------|-------|
| 9:07 - 9:22   | In, Mr | Clif | Parker 2022-10-25                                   | 00:00:41 | V1M.1 |
|               | 9:07   | Q.   | Could you please state your full name and           |          |       |
|               | 9:08   |      | your address.                                       |          |       |
|               | 9:09   | A.   | Clifton Earl Parker, 22018 Panama City              |          |       |
|               | 9:10   |      | Beach, Florida.                                     |          |       |
|               | 9:11   | Q.   | Is that your home address or your work              |          |       |
|               | 9:12   |      | address?  |          |       |
|               | 9:13   | A.   | Home address.                                       |          |       |
|               | 9:14   | Q.   | Are you currently employed?                         |          |       |
|               | 9:15   | A.   | I am.   |          |       |
|               | 9:16   | Q.   | Where are you employed?                             |          |       |
|               | 9:17   | A.   | I have multiple businesses, but primary             |          |       |
|               | 9:18   |      | business is Restore Robotics and Restore Robotics   |          |       |
|               | 9:19   |      | Repairs.  |          |       |
|               | 9:20   | Q.   | And are all of your businesses also                 |          |       |
|               | 9:21   |      | located in Panama City area?                        |          |       |
|               | 9:22   | A.   | Yes, they are.                                      |          |       |
| 13:21 - 14:23 | In, Mr | Clif | Parker 2022-10-25                                   | 00:01:22 | V1M.2 |
|               | 13:21  |      | You are the CEO of Restore Robotics LLC;            |          |       |
|               | 13:22  |      | is that correct?                                    |          |       |
|               | 13:23  | A.   | That's correct.                                     |          |       |
|               | 13:24  | Q.   | And the majority owner?                             |          |       |
|               | 13:25  | A.   | Correct.  |          |       |
|               | 14:01  | Q.   | And what is your position with respect to           |          |       |
|               | 14:02  |      | Restore Robotics Repair?                            |          |       |
|               | 14:03  | A.   | I'm a 50 percent owner.                             |          |       |
|               | 14:04  | Q.   | Who is the other 50 percent?                        |          |       |
|               | 14:05  | A.   | Kevin May.  |          |       |
|               | 14:06  | Q.   | And do you have a job title of some kind            |          |       |
|               | 14:07  |      | with Restore Robotics Repair?                       |          |       |
|               | 14:08  | A.   | I'm the CEO   |          |       |
|               | 14:09  | Q.   | So you're   |          |       |
|               | 14:10  | A.   | Actually, that let me be more accurate,             |          |       |
|               | 14:11  |      | I personally am not a 50 percent owner, one of my   |          |       |
|               | 14:12  |      | companies, Parker Holding Group, is a 50 percent of | owner,   |       |
|               | 14:13  |      | and Kevin May and Jodi May Trust is the other       |          |       |
|               | 14:14  |      | 50 percent owner.                                   |          |       |
|               | 14:15  | Q.   | And what's the level of your ownership in           |          |       |
|               | 14:16  |      | Restore Robotics?                                   |          |       |
|               | 14:17  | A.   | Through Parker Holding Group, it's 52               |          |       |

|                 | VIIVI - FAIREI FA DC FR WIEIgeu                        |                |        |
|-----------------|--|----------------|--------|
| DESIGNATION     | SOURCE   | DURATION       | I D    |
|                 | 14:18 percent.   |                |        |
|                 | 14:19 Q. Are there any other co-owners of Restore      |                |        |
|                 | 14:20 Robotics today, other than yourself, Mr. M       | lay, and       |        |
|                 | 14:21 Mr. Vautrot, other than, like, through inter     | mediate        |        |
|                 | 14:22 companies  |                |        |
|                 | 14:23 A. No.   |                |        |
| 31:15 - 32:01   | In, Mr Clif Parker 2022-10-25                          | 00:00:40       | V1M.3  |
|                 | 31:15 Q. Am I correct that as of today you do not      |                |        |
|                 | 31:16 possess the technology that would be need        | ded to do that |        |
|                 | 31:17 with the Xi instruments?                         |                |        |
|                 | 31:18 A. We don't have all of the technology           |                |        |
|                 | 31:19 completed, it's just I we have the ability       | y, but we      |        |
|                 | 31:20 haven't completed all of it, we've we've         | completed      |        |
|                 | quite a few functions, but it's not in a cor           | mmercial       |        |
|                 | 31:22 ready to go form yet.                            |                |        |
|                 | 31:23 Q. So if somebody brought an Xi instrument t     | 0              |        |
|                 | 31:24 you today that had only one life left on it,     | you would      |        |
|                 | 31:25 not be able to reset it; correct?                |                |        |
|                 | 32:01 A. That's correct.                               |                |        |
| 88:25 - 89:12   | In, Mr Clif Parker 2022-10-25                          | 00:00:43       | V1M.25 |
|                 | 88:25 Q. When did you begin the effort to find a       |                |        |
|                 | 89:01 way to reset the usage counter on the X an       | nd Si?         |        |
|                 | 89:02 A. As soon as we had a good understanding        | of             |        |
|                 | 89:03 how to reset the counter on the Si, we imm       | nediately      |        |
|                 | 89:04 started looking at the Xi.                       |                |        |
|                 | 89:05 Q. Do you know when that was?                    |                |        |
|                 | 89:06 A. Not exactly, no. It's sometime in 2020,       |                |        |
|                 | 89:07 but I'm not sure of the dates.                   |                |        |
|                 | 89:08 Q. So that work has been ongoing ever since      |                |        |
|                 | 89:09 2020?  |                |        |
|                 | 89:10 A. Yes.  |                |        |
|                 | 89:11 Q. And it is still not complete; correct?        |                |        |
|                 | 89:12 A. Correct.                                      |                |        |
| 130:02 - 130:23 | In, Mr Clif Parker 2022-10-25                          | 00:01:07       | V1M.4  |
|                 | 130:02 Earlier on, Ms. Winner, a couple times,         |                |        |
|                 | 130:03 referenced the fact that you were Restor        | e was not      |        |
|                 | 130:04 utilizing its repair technology since, I believ | ve it was      |        |
|                 | 130:05 late 2019; is that right?                       |                |        |
|                 | 130:06 A. We were not, we stopped using Rebotix's      |                |        |
|                 | 130:07 repair technology in October of 2019, and       | then we've     |        |

| DESIGNATION     | SOURCE      | -  | DURATION | ID    |
|-----------------|-------------|--|----------|-------|
|                 | 130:08      | started developing our own December of 2019, Jar       | nuary of |       |
|                 | 130:09      | 2020.  |          |       |
|                 | 130:10 Q.   | You have not reset any EndoWrists with                 |          |       |
|                 | 130:11      | Restore technology since that time; correct?           |          |       |
|                 | 130:12 A.   | Not for hospitals, just for internal                   |          |       |
|                 | 130:13      | testing purposes.                                      |          |       |
|                 | 130:14 Q.   | Why haven't you reset any EndoWrist for                |          |       |
|                 | 130:15      | hospitals in that time frame?                          |          |       |
|                 | 130:16 A.   | It's futile. If we do that, then                       |          |       |
|                 | 130:17      | Intuitive goes to the hospital and threatens to end    |          |       |
|                 | 130:18      | their contracts, threatens to not sell them            |          |       |
|                 | 130:19      | instruments, not sell them accessories, threatens to   | 0        |       |
|                 | 130:20      | move their doctors to other hospitals, et cetera.      |          |       |
|                 | 130:21 Q.   | And you say that because that's what                   |          |       |
|                 | 130:22      | Intuitive has done in the past?                        |          |       |
|                 | 130:23 A.   | Correct.   |          |       |
| 132:24 - 133:01 | In, Mr Clif | Parker 2022-10-25                                      | 00:00:09 | V1M.5 |
|                 | 132:24 Q.   | Do you think that Restore's experience in              |          |       |
|                 | 132:25      | repairing Si chips is relevant to getting into the Xi  |          |       |
|                 | 133:01      | business?  |          |       |
| 133:05 - 134:07 | In, Mr Clif | Parker 2022-10-25                                      | 00:01:58 | V1M.6 |
|                 | 133:05      | THE WITNESS: Yes.                                      |          |       |
|                 | 133:06      | BY MR. CORRIGAN:                                       |          |       |
|                 | 133:07 Q.   | How so?  |          |       |
|                 | 133:08 A.   | Well, the instrument itself is I'm                     |          |       |
|                 | 133:09      | trying to think of the best way to describe it, it's a |          |       |
|                 | 133:10      | very mechanical instrument, robotic is a misnomer      | when     |       |
|                 | 133:11      | it comes to the instrument, it's basically your you    | ır       |       |
|                 | 133:12      | typical laparoscopic instrument that has different -   | -        |       |
|                 | 133:13      | different type of end factors, whether that's scissor  | rs       |       |
|                 | 133:14      | or graspers, what have you, so the very tip end of t   | he       |       |
|                 | 133:15      | instrument is just like any other instrument.          |          |       |
|                 | 133:16      | The ability for that instrument to rotate              |          |       |
|                 | 133:17      | is simple gears and pulleys and wires, I mean, the     | re's     |       |
|                 | 133:18      | nothing electronic, there's nothing special about th   | at.      |       |
|                 | 133:19      | And then when you compare the Si to the Xi             |          |       |
|                 | 133:20      | instruments, if I was to, you know, put a cover on     |          |       |
|                 | 133:21      | the the cap that connects to the robot, and you j      | ust      |       |
|                 | 155.21      |  |          |       |
|                 | 133:22      | look at the bottom, you know, 7/8ths of the instrur    | ment,    |       |

|                 | 141:20 THE WITNESS: I'm extremely confident, I'i     | m                                     |           |
|                 | 141:21 a hundred percent confident.                  |                                       |           |
| 142:13 - 143:02 | In, Mr Clif Parker 2022-10-25                        | 00:01:10                              | V1M.9     |
|                 | 142:13 Q. When did Restore first consider repairing  |                                       |           |
|                 | 142:14 Xi and X compatible EndoWrists, roughly?      |                                       |           |
|                 | 142:15 A. We were first contacted by Rebotix, or     |                                       |           |
|                 | 142:16 Kevin and Rebotix met, and I believe it w     | vas it was                            |           |
|                 | 142:17 April of 2018, and then sometime between      | n April 2018 and                      |           |
|                 | 142:18 October '18, we had the discussions with      | n Rebotix to be                       |           |
|                 | 142:19 their repair center.                          |                                       |           |
|                 | 142:20 So we were doing we started doing the         |                                       |           |
|                 | repairs for their customers, our customers           | s, and any                            |           |
|                 | 142:22 other distributors starting in October of 20  | 018.                                  |           |
|                 | 142:23 And then December of 2019, I think, is        |                                       |           |
|                 | 142:24 when we undertook our development effort      | orts to develop                       |           |
|                 | 142:25 our technology. I think we got our first chi  | ips, our                              |           |
|                 | 143:01 first boards developed and completed in       | June I                                |           |
|                 | 143:02 believe June of 2020.                         |                                       |           |
| 143:18 - 143:20 | In, Mr Clif Parker 2022-10-25                        | 00:00:10                              | V1M.10    |
|                 | 143:18 Q. Mr. Parker, when would Restore have begu   | ın                                    |           |
|                 | 143:19 to repair X and Xi compatible EndoWrists      |                                       |           |
|                 | 143:20 without Intuitive's anticompetitive beha      |                                       |           |
| 143:23 - 144:04 | In, Mr Clif Parker 2022-10-25                        | 00:00:36                              | V1M.36    |
| 143.23 - 144.04 |  |                                       | A TIA1.20 |
|                 | 143:23 THE WITNESS: So we we started in 2020         | J,                                    |           |

|-----------------|---|----------|--------|
| DESIGNATION     | SOURCE  | DURATION | I D    |
|                 | 143:24 I guess we, in a in a but-for world, if that's wh  | at       |        |
|                 | 143:25 you want to call it, we would have started in 201  | .9, we   |        |
|                 | 144:01 felt that, you know, we would have easily met the  | he       |        |
|                 | 144:02 January 2022 as a the time frame when we wou       | uld be   |        |
|                 | 144:03 able to be in the market and have the chip comp    | oleted   |        |
|                 | 144:04 and ready to go.                                   |          |        |
| 149:08 - 150:22 | In, Mr Clif Parker 2022-10-25                             | 00:02:07 | V1M.12 |
|                 | 149:08 Q. Now, does Restore have the ability to ramp      |          |        |
|                 | 149:09 up its repair business due to an increased         |          |        |
|                 | 149:10 increased increased business                       |          |        |
|                 | 149:11 A. Absolutely.                                     |          |        |
|                 | 149:12 Q. Let me try that again, I think I can I          |          |        |
|                 | think I can do better than that.                          |          |        |
|                 | 149:14 Does Restore have the ability to ramp up           |          |        |
|                 | in the face of increased repair business?                 |          |        |
|                 | 149:16 A. Absolutely.                                     |          |        |
|                 | 149:17 Q. How so?   |          |        |
|                 | 149:18 A. So whether that's individually or through       |          |        |
|                 | 149:19 partners like Alliance Healthcare, Alliance has be | een in   |        |
|                 | the business of doing remanufacturing of single           | e use    |        |
|                 | 149:21 devices, have done millions and millions of thos   | se       |        |
|                 | devices, we know how long it takes to do the repa         | air, we  |        |
|                 | 149:23 know the manpower it takes, and it's it's not a    | a        |        |
|                 | it's not a complicated process, and and Kevin             | has      |        |
|                 | done the analysis on how many man-hours it take           | es to do |        |
|                 | 150:01 X number of EndoWrists, I don't have those number  | oers off |        |
|                 | the top of my head, but he probably has them co           | mmitted  |        |
|                 | 150:03 to memory because that's part of what he did, so   | being    |        |
|                 | able to ramp up and do hundreds of instruments            | a day is |        |
|                 | 150:05 not an issue.                                      |          |        |
|                 | 150:06 Q. Has Restore ever attempted to repair            |          |        |
|                 | 150:07 Senhance compatible instruments?                   |          |        |
|                 | 150:08 A. We have not, no.                                |          |        |
|                 | 150:09 Q. Has Restore ever attempted to repair Flex       |          |        |
|                 | 150:10 compatible instruments?                            |          |        |
|                 | 150:11 A. We have not.                                    |          |        |
|                 | 150:12 Q. Do you have any information on whether          |          |        |
|                 | 150:13 other independent repair companies have ever tr    | ried to  |        |
|                 | 150:14 repair Senhance and/or Flex compatible instrume    | ents?    |        |
|                 | 150:15 A. I am not aware.                                 |          |        |

|-----------------|--|----------|--------|--|--|
| DESIGNATION     | SOURCE   | DURATION | I D    |  |  |
|                 | 150:16 I've had conversations with the CEO of                |          |        |  |  |
|                 | 150:17 TransEnterix, the original name, about that, and so I |          |        |  |  |
|                 | do know that they were in discussions with, you know,        |          |        |  |  |
|                 | 150:19 traditional repair companies on the instrument rep    | pair     |        |  |  |
|                 | 150:20 because I believe their instruments did not have a    | ı        |        |  |  |
|                 | usage counter, and they were in discussion with u            | S        |        |  |  |
|                 | about doing repairs on the physical robot itself.            |          |        |  |  |
| 166:17 - 166:20 | In, Mr Clif Parker 2022-10-25                                | 00:00:08 | V1M.13 |  |  |
|                 | 166:17 BY MR. CORRIGAN:                                      |          |        |  |  |
|                 | 166:18 Q. What was your projection on the number or          |          |        |  |  |
|                 | 166:19 percentage of hospitals that would have been willin   | g to     |        |  |  |
|                 | 166:20 use your services to repair EndoWrists?               |          |        |  |  |
| 166:22 - 167:04 | In, Mr Clif Parker 2022-10-25                                | 00:00:15 | V1M.37 |  |  |
|                 | 166:22 THE WITNESS: 70, 80 plus percent that                 |          |        |  |  |
|                 | 166:23 was   |          |        |  |  |
|                 | 166:24 BY MR. CORRIGAN:                                      |          |        |  |  |
|                 | 166:25 Q. What was that base I'm sorry, I'm                  |          |        |  |  |
|                 | 167:01 sorry, go ahead.                                      |          |        |  |  |
|                 | 167:02 A. 70 to 80 plus percent is what we were              |          |        |  |  |
|                 | 167:03 actually experiencing, so we we didn't see any        |          |        |  |  |
|                 | 167:04 reason for that to change.                            |          |        |  |  |
| 172:10 - 172:20 | In, Mr Clif Parker 2022-10-25                                | 00:00:44 | V1M.14 |  |  |
|                 | 172:10 You mentioned that Restore had an                     |          |        |  |  |
|                 | 172:11 agreement with SIS; is that correct?                  |          |        |  |  |
|                 | 172:12 A. That's correct.                                    |          |        |  |  |
|                 | 172:13 Q. What was the nature of that agreement,             |          |        |  |  |
|                 | 172:14 generally?  |          |        |  |  |
|                 | 172:15 A. It was a distribution agreement, so                |          |        |  |  |
|                 | 172:16 basically SIS would represent Restore Robotics        |          |        |  |  |
|                 | actually, I need to think about that for a second.           |          |        |  |  |
|                 | 172:18 SIS would have the ability to utilize our             |          |        |  |  |
|                 | 172:19 technology in repairing the Xi instruments for them   | to       |        |  |  |
|                 | sell those repair services to their hospital customer.       |          |        |  |  |
| 174:17 - 174:21 | In, Mr Clif Parker 2022-10-25                                | 00:00:14 | V1M.15 |  |  |
|                 | 174:17 Q. I believe you also testified about the             |          |        |  |  |
|                 | 174:18 complexity of repairing an EndoWrist.                 |          |        |  |  |
|                 | 174:19 Do you have an opinion as to whether or               |          |        |  |  |
|                 | not, with respect to the repair of the device itself,        |          |        |  |  |
|                 | 174:21 SIS was qualified to repair EndoWrists?               |          |        |  |  |

| DESIGNATION     | SOURCE SOURCE  | DURATION | I D    |
|-----------------|--|----------|--------|
| 174:24 - 175:03 | In, Mr Clif Parker 2022-10-25                                | 00:00:19 | V1M.38 |
|                 | 174:24 THE WITNESS: The EndoWrist repair is a                |          |        |
|                 | 174:25 very simple repair, especially in comparison to the   |          |        |
|                 | other repairs that SIS is involved with, so it's a           |          |        |
|                 | it's not near as complicated as, for example, a              |          |        |
|                 | 175:03 flexible end scope.                                   |          |        |
| 176:02 - 176:07 | In, Mr Clif Parker 2022-10-25                                | 00:00:18 | V1M.26 |
|                 | 176:02 Q. First of all, on the question of your              |          |        |
|                 | 176:03 business with SIS, was SIS was your relationship      | )        |        |
|                 | 176:04 with SIS ever involving SIS itself actually doing an  | У        |        |
|                 | 176:05 physical work on the EndoWrists to change the usag    | ge       |        |
|                 | 176:06 counters?   |          |        |
|                 | 176:07 A. No.  |          |        |
| 182:01 - 182:04 | In, Mr Clif Parker 2022-10-25                                | 00:00:11 | V1M.22 |
|                 | 182:01 Q. Did Rebotix ever have the technology, to           |          |        |
|                 | 182:02 your knowledge, to reset the usage counter on the     | Ki?      |        |
|                 | 182:03 A. Not to my knowledge, they had not done             |          |        |
|                 | 182:04 that yet.   |          |        |
| 184:01 - 184:25 | In, Mr Clif Parker 2022-10-25                                | 00:01:30 | V1M.16 |
|                 | 184:01 Q. You were also asked about your ability to          |          |        |
|                 | 184:02 ramp up your business in in resetting EndoWrists,     |          |        |
|                 | 184:03 and you you cited as the main way you do it, the      |          |        |
|                 | 184:04 Alliance's experience with millions of single use     |          |        |
|                 | 184:05 devices.  |          |        |
|                 | 184:06 Do I have that right?                                 |          |        |
|                 | 184:07 A. Well, I mean, that's that's not the                |          |        |
|                 | 184:08 reason that we have the ability to ramp up, but the   | y        |        |
|                 | 184:09 have the the ability to ramp up, and we when w        | /e       |        |
|                 | 184:10 were doing the repairs ourselves, we knew what it to  | cook     |        |
|                 | 184:11 to do a certain number of repairs and remanufactur    | ing,     |        |
|                 | so we know what it takes to do that, and we've don           | e        |        |
|                 | 184:13 that analysis, both internally and with Alliance and, |          |        |
|                 | 184:14 you know, Rick has assured us that volume is not a    |          |        |
|                 | 184:15 problem, we can handle it.                            |          |        |
|                 | 184:16 Q. There's no limit on the volume they can            |          |        |
|                 | 184:17 handle?   |          |        |
|                 | 184:18 A. Well, there's a limit, but we know how             |          |        |
|                 | 184:19 many instruments are being used, and we know the      |          |        |
|                 | 184:20 potential world of repairs that we could potentially  | /        |        |
|                 | do, so it's not like there's going to be, you know,          |          |        |

| DESIGNATION     | SOURCE      |  | DURATION | ID     |
|                 | 184:22      | millions of instruments flowing in every week,         |          |        |
|                 | 184:23      | there's there's not that many being used, so if        |          |        |
|                 | 184:24      | it's, you know, hundreds every week, or even a         |          |        |
|                 | 184:25      | thousand, that's that's a not unmanageable.            |          |        |
| 186:21 - 187:06 | In, Mr Clif | Parker 2022-10-25                                      | 00:00:27 | V1M.23 |
|                 | 186:21 Q.   | You were asked whether you'd be concerned              |          |        |
|                 | 186:22      | about Intuitive buying up used EndoWrists to preven    | ent      |        |
|                 | 186:23      | your recycling business.                               |          |        |
|                 | 186:24      | Do you remember that question?                         |          |        |
|                 | 186:25 A.   | Yes.   |          |        |
|                 | 187:01 Q.   | Has Intuitive done that?                               |          |        |
|                 | 187:02 A.   | I don't know.  |          |        |
|                 | 187:03 Q.   | Do you have any reason to believe they                 |          |        |
|                 | 187:04      | have?  |          |        |
|                 | 187:05 A.   | No, but I I just I don't know one                      |          |        |
|                 | 187:06      | way or the other if they have.                         |          |        |
| 190:04 - 190:08 | In, Mr Clif | Parker 2022-10-25                                      | 00:00:11 | V1M.27 |
|                 | 190:04      | What I asked you was: If you had reason                |          |        |
|                 | 190:05      | to think that somebody was using one of your prod      | lucts,   |        |
|                 | 190:06      | going to do something to one of your products tha      | t was    |        |
|                 | 190:07      | going to injure somebody, would you try to do som      | nething  |        |
|                 | 190:08      | about it?  |          |        |
| 190:10 - 190:11 | In, Mr Clif | Parker 2022-10-25                                      | 00:00:03 | V1M.28 |
|                 | 190:10      | THE WITNESS: I would try to do something               |          |        |
|                 | 190:11      | about it, most likely.                                 |          |        |
| 196:14 - 197:04 | In, Mr Clif | Parker 2022-10-25                                      | 00:00:47 | V1M.29 |
|                 | 196:14 Q.   | What would you do if you thought someone               |          |        |
|                 | 196:15      | was using your equipment in a way that you thoug       | ht was   |        |
|                 | 196:16      | going to harm someone?                                 |          |        |
|                 | 196:17 A.   | Well, I would let the hospital know in                 |          |        |
|                 | 196:18      | this situation, because that's their responsibility,   |          |        |
|                 | 196:19      | ,                |          |        |
|                 | 196:20      | I would let someone know that, you know, 'Hey, t       | his is,  |        |
|                 | 196:21      | you know, a potential problem,' and let them make      | e that   |        |
|                 | 196:22      | determination.   |          |        |
|                 | 196:23      | They're the ones that's ultimately                     |          |        |
|                 | 196:24      | responsible for the safety of their patient with their | r        |        |
|                 | 196:25      | equipment.   |          |        |
